Part II: Fee Information

Part III: Registrant Information

Rev. 11/17/04

Part III: Registrant Information (cont.)

2. If the applicant is a municipality, complete the following and omit questions 3, 4, 5 & 6 of Part III.

Name of Municipality:

Mailing Address:

City/Town: State: Zip Code: -

Business Phone: - - ext. Fax: - -

Contact Person: Title:

3. List primary contact for departmental correspondence and inquiries, if different than the registrant.

Name:

Mailing Address:

City/Town: State: Zip Code: -

Business Phone: - - ext. Fax: - -

Contact Person: Title:

4. List attorney or other representative, if applicable:

Firm Name:

Mailing Address:

City/Town: State: Zip Code: -

Business Phone: - - ext. Fax: - -

Attorney: Title:

5. Facility or Site Owner, if different than the registrant:

Name:

Mailing Address:

City/Town: State: Zip Code: -

Business Phone: - - ext. Fax: - -

Contact Person: Title:

6. List any engineer(s), certified hazardous materials manager, or other consultant(s) employed or retained to design or certify the treatment system for the discharge, which is the subject of this registration. Please enter a check mark if additional sheets are necessary, and label and attach them to this sheet. ☐

Name:

Mailing Address:

City/Town: State: Zip Code: -

Business Phone: - - ext. Fax: - -

Contact Person: Title:

Service Provided:

Reproduce Parts IV and V for each site and for each type of discharge that is the subject of this registration.

Part IV: Site Information

Complete the following part for each site that is the subject of this registration. Label each site consecutively starting with the number 1.

1. Site No.:			
2. Name of facility, if applicable:			
3. Street Address or Description of Location:			
City/Town:	State:	Zip Code:	-
4. Name of Receiving POTW:			
Address of Receiving POTW:			
City/Town:	State:	Zip Code:	-

Part V: Activity Information

Complete the following part for each type of discharge that is the subject of this registration. Label each discharge consecutively starting with the number 1.

1. Site No.:	2. Discharge No.:
3. Type of discharge (check one)	
<input type="checkbox"/> Air Compressor Condensate & Blowdown*	<input type="checkbox"/> Building Maintenance Wastewater*
<input type="checkbox"/> Contact Cooling & Heating Water*	<input type="checkbox"/> Cutting & Grinding Wastewater*
<input type="checkbox"/> Fire Sprinkler System Testwater*	<input type="checkbox"/> Non-Destruct Testing Rinsewater*
<input type="checkbox"/> Undesignated MISC Wastewater	
* Does <i>not</i> apply to Municipalities	
4. Date discharge began or will begin:	/ /
5. Date discharge is expected to end:	/ /
6. Maximum Daily Flow:	gpd
7. Method of Flow Measurement:	
8. Process or Activities generating the discharge:	

Part V: Activity Information (cont.)

Site No.:

Discharge No.:

Municipalities may omit questions 9 and 10.

9. Raw Materials used in process or activity generating the discharge:
10. List the substances used or added to the wastewater, including but not limited to those substances for which effluent limitations are specified in subsection 5(b) of the *General Permit for MISC Wastewater* and those substances listed in Appendix B Table II, III and V or Appendix D of Section 22a-430-4 of the Regulations of Connecticut State Agencies. Any such substances *must* be identified by their generic chemical names.
11. Describe the best management practices, such as conservation and reuse of water, minimization, substitution and reuse of chemicals, and other pollution prevention measures, implemented or to be implemented by the registrant to minimize any adverse environmental effects of the subject discharge.
12. Describe any wastewater treatment processes, such as neutralization, oil/water separation, and precipitation of solids or metals, which the registrant utilizes or will utilize to achieve compliance with any of the effluent limitations specified in subsection 5(b) of the *General Permit for MISC Wastewater*.

☐ Please enter a check mark if additional sheets are required. If so, please reproduce this sheet, label, and attach copies to this sheet.

Part VI: Supporting Documents

Please enter a check mark by the attachments as verification that *all* attachments have been submitted with this registration form. Please refer to the MISC General Permit and Guidance Document to determine which attachments you need to submit. When submitting any supporting documents, please label the documents as indicated in this part (e.g., Attachment A, etc.) and be sure to include the registrant's name as indicated on the *Permit Application Transmittal Form*. Municipalities need not submit Attachments A, B or C.

- | | | |
|--------------------------|---------------|--|
| <input type="checkbox"/> | Attachment A: | A completed <i>Approval for Connection to a Sanitary Sewer</i> (DEP-PERD-REG-012A) for any MISC wastewater discharge, other than a discharge of fire sprinkler system testwater, with a maximum daily flow greater than 5,000 gallons per day, along with the certifications (Attachments A-1 [DEP-PERD-REG-012A-1] and/or A-2 [DEP-PERD-REG-012A-2]) specified in this attachment. (Attachments B or C are not required if this attachment is submitted.) |
| <input type="checkbox"/> | Attachment B: | A completed <i>Professional Certification</i> (DEP-PERD-REG-012B) for any <i>new</i> discharge of MISC wastewater, other than a discharge of fire sprinkler testwater, with a maximum daily flow greater than 5,000 gallons per day, along with the requirements under Section 4(e)(2)(L)(ii)(1-5) of the <i>General Permit for MISC Wastewater</i> . (Attachment A is not required if this attachment is submitted.) |
| <input type="checkbox"/> | Attachment C: | A completed <i>Professional Certification</i> (DEP-PERD-REG-012C) for any <i>existing</i> discharge of MISC wastewater, other than a discharge of fire sprinkler testwater, with a maximum daily flow greater than 5,000 gallons per day, along with the requirements under Section 4(e)(2)(L)(ii)(1-5) of the <i>General Permit for MISC Wastewater</i> . (Attachment A is not required if this attachment is submitted.) |
| <input type="checkbox"/> | Attachment D: | A completed <i>Hazardous Waste Determination Form</i> (DEP-PERD-REG-012D) for any discharges which are transported to a POTW in accordance with Section 5(a)(3) of the <i>General Permit for MISC Wastewater</i> , written certification that such wastewater is not a hazardous waste in accordance with Section 22a-449(c)-102 of the Regulations of Connecticut State Agencies, incorporating Federal Regulation 40 CFR 261.11 – Hazardous Waste Determination. |

Part VII: Registrant Certification

The registrant *and* the individual(s) responsible for actually preparing the registration must sign this part. A registration will be considered incomplete unless all required signatures are provided.

"I have personally examined and am familiar with the information submitted in this registration, including all attachments thereto, and I certify that, based on reasonable investigation, including my inquiry of those individuals responsible for obtaining such information, that information is true, accurate and complete to the best of my knowledge and belief;

I understand that a false statement made in this registration, including all attachments thereto, may, pursuant to Section 22a-6 of the General Statutes, be punishable as a criminal offense under Section 53a-157b of the General Statutes, and may also be punishable under Section 22a-438 of the General Statutes and any other applicable law;

That this registration is on complete and accurate forms as prescribed by the commissioner, without alteration of their text;

That I have read the General Permit for the Discharge of Miscellaneous Sewer Compatible Wastewater issued by the commissioner on April 30, 2001; that each discharge which is the subject of this registration is eligible for authorization under such permit; that if such discharge is an existing discharge, it complies with all applicable requirements of such permit; and that, if necessary, a functioning and effective system or equipment is in place to ensure that all such requirements are complied with so long as each such discharge continues;

That a copy of this completed registration form has been submitted to the applicable POTW Authority;

That any discharge of MISC wastewater authorized under this general permit without direct access to a sanitary sewer will be conveyed to the receiving POTW by means of a properly licensed transporter."

Signature of Registrant / /
Date

Name of Registrant (print or type) Title (if applicable)

Signature of Preparer / /
Date

Name of Preparer (print or type) Title (if applicable)

☐ Please enter a check mark if additional signatures are necessary. If so, please reproduce this sheet and attach signed copies to this sheet.

Note: Please submit the Permit Application Transmittal Form, Registration Form, Fee, and all Supporting Documents to:

CENTRAL PERMIT PROCESSING UNIT
DEPARTMENT OF ENVIRONMENTAL PROTECTION
79 ELM STREET
HARTFORD, CT 06106-5127

For any discharge of MISC wastewater, a copy of the completed registration form shall also be sent to the POTW, which receives or will receive the discharge.

Attachment A: Approval for Connection to a Sanitary Sewer

This approval is at the sole discretion of the applicable POTW Authority. They are not required to provide this approval. For any MISC wastewater discharge, other than a discharge of fire sprinkler system testwater, with a maximum daily flow greater than 5,000 gallons per day, the registrant and a responsible official from the POTW receiving the discharge must sign this approval. Where a local sewer commission acts independently of the POTW which treats the discharge, the local sewer commission must sign the approval.

The below referenced facility is seeking Authority from the Department of Environmental Protection to discharge wastewater to the sanitary sewer for a period of (check one):

☐ <30 days

☐ >30 days to one year

☐ >1 year

Discharge volume will not exceed _____ gallons per day.

The discharge shall consist of:

Discharge Site:

Site Address:

City/Town:

State:

Zip Code:

-

/ /
Date

Signature of Registrant

To be completed by receiving POTW which treats the discharge:

"I have examined the information associated with this registration for the discharge of MISC wastewater submitted by the registrant and, insofar as this information is represented, hereby certify that there is adequate hydraulic capacity to accept such wastewater within the sewerage conveyance system and/or POTW (as applicable) under my jurisdiction."

Name of Receiving POTW:

Address of POTW:

City/Town:

State:

Zip Code:

-

Comments:

Submit this completed approval form and Attachments A-1 (DEP-PERD-REG-012A-1) and/or A-2 (DEP-PERD-REG-012A-2) along with a completed registration form.

Attachment A-1: Registrant Certification for Approval for a New Connection to a Sanitary Sewer

The registrant *and* the individual(s) responsible for actually preparing the registration must sign this part. A registration will be considered incomplete unless all required signatures are provided. For any *new* discharge of MISC wastewater, other than a discharge of fire sprinkler testwater, with a maximum daily flow greater than 5,000 gallons per day:

"I certify that proper operation and maintenance of any equipment or systems installed to treat each discharge which is the subject of this registration will ensure compliance of each such discharge with all effluent limitations and other conditions of the Department's *General Permit for the Discharge of Miscellaneous Sewer Compatible Wastewater* or, if no such equipment or system has been installed, each such discharge will comply with all such conditions without treatment. This certification is based on my review of any available engineering descriptions or evaluations of the subject treatment system for each such discharge and any proposed equipment or systems to treat each such discharge.

I understand that a false statement made in the submitted information may, pursuant to Section 22a-6 of the General Statutes, be punishable as a criminal offense under Section 53a-157b of the General Statutes, and may be punishable under Section 22a-438 of the General Statutes and any other applicable law."

Attachment A-2: Registrant Certification for Approval for an *Existing* Connection to a Sanitary Sewer

The registrant *and* the individual(s) responsible for actually preparing the registration must sign this part. A registration will be considered incomplete unless all required signatures are provided. For any *existing* discharge of MISC wastewater, other than a discharge of fire sprinkler testwater, with a maximum daily flow greater than 5,000 gallons per day:

"I certify that each discharge which is the subject of this registration will comply with all effluent limitations and other conditions of the Department's *General Permit for the Discharge of Miscellaneous Sewer Compatible Wastewater*, and proper operation and maintenance of any equipment or systems installed to treat each such discharge will ensure that all such conditions are met, or, if no such equipment or system has been installed, each such discharge will comply with all such conditions without treatment. This certification is based on my review of (a) any available engineering descriptions or evaluations of the subject treatment system for each such discharge and any proposed equipment or systems to treat each such discharge, and (b) analyses of at least three samples of each such discharge collected, preserved, handled and analyzed in accordance with 40 CFR Part 136. The said samples were representative of each such discharge under routine operating conditions, were collected during the twelve months previous to the date of this certification and at least one week apart, and were collected and analyzed in accordance with subsection 5(c) of such general permit.

I understand that a false statement made in the submitted information may, pursuant to Section 22a-6 of the General Statutes, be punishable as a criminal offense under Section 53a-157b of the General Statutes, and may also be punishable under Section 22a-438 of the General Statutes."

Attachment B: Professional Certification for a New Discharge

For any *new* discharge of MISC wastewater, other than a discharge of fire sprinkler testwater, with a maximum daily flow greater than 5,000 gallons per day, submission of the requirements under Section 4(e)(2)(L)(ii)(1-5) of the *General Permit for MISC Wastewater* by a certified hazardous materials manager or professional engineer licensed to practice in Connecticut *and* the following certification:

"I certify that in my professional judgement, proper operation and maintenance of any equipment or systems installed to treat each discharge which is the subject of this registration will ensure compliance of each such discharge with all effluent limitations and other conditions of the Department's *General Permit for the Discharge of Miscellaneous Sewer Compatible Wastewater* or, if no such equipment or system has been installed, each such discharge will comply with all such conditions without treatment. This certification is based on my review of any available engineering descriptions or evaluations of the subject treatment system for each such discharge and any proposed equipment or systems to treat each such discharge.

I understand that a false statement made in the submitted information may, pursuant to Section 22a-6 of the General Statutes, be punishable as a criminal offense under Section 53a-157b of the General Statutes, and may be punishable under Section 22a-438 of the General Statutes and any other applicable law."

(if applicable)

If applicable, submit this completed certification form and requirements under Section 4(e)(2)(L)(ii)(1-5) of the *General Permit for MISC Wastewater* with a completed registration form.

Attachment C: Professional Certification for an *Existing* Discharge

For any *existing* discharge of MISC wastewater, other than a discharge of fire sprinkler testwater, with a maximum daily flow greater than 5,000 gallons per day, submission of the requirements under Section 4(e)(2)(L)(ii)(1-5) of the *General Permit for MISC Wastewater* by a certified hazardous materials manager or professional engineer licensed to practice in Connecticut *and* the following certification:

"I certify that in my professional judgement, each discharge which is the subject of this registration will comply with all effluent limitations and other conditions of the Department's *General Permit for the Discharge of Miscellaneous Sewer Compatible Wastewater*, and proper operation and maintenance of any equipment or systems installed to treat each such discharge will ensure that all such conditions are met, or, if no such equipment or system has been installed, each such discharge will comply with all such conditions without treatment. This certification is based on my review of (a) any available engineering descriptions or evaluations of the subject treatment system for each such discharge and any proposed equipment or systems to treat each such discharge, and (b) analyses of at least three samples of each such discharge collected, preserved, handled and analyzed in accordance with 40 CFR Part 136. The said samples were representative of each such discharge under routine operating conditions, were collected during the twelve months previous to the date of this certification and at least one week apart, and were collected and analyzed in accordance with subsection 5(c) of such general permit.

I understand that a false statement made in the submitted information may, pursuant to Section 22a-6 of the General Statutes, be punishable as a criminal offense under Section 53a-157b of the General Statutes, and may also be punishable under Section 22a-438 of the General Statutes."

(if applicable)

If applicable, submit this completed certification form and requirements under Section 4(e)(2)(L)(ii)(1-5) of the *General Permit for MISC Wastewater* with a completed registration form.

Attachment D: Non-Hazardous Waste Certification

For any wastewater which the applicant/registrant proposes to have transported to a Publicly Owned Treatment Works (POTW) in accordance with the requirements of Section 5(a)(3) of the *General Permit for MISC Wastewater*, the following statement that such wastewater is not hazardous must be completed by the applicant or by a licensed Professional Engineer or Certified Hazardous Materials Manager:

_____ (Applicant's Name)	hereby certifies the
wastewater(s) that is/are directed to the City/Town of _____ (City/Town)	
<p>POTW and described herein in the attached <i>General Permit Registration Form for Miscellaneous Discharges of Sewer Compatible Wastewater</i> (DEP-PERD-REG-012) is/are characterized as non-hazardous in accordance with Section 22a-449(c)-102 of the Regulations of Connecticut State Agencies, incorporating Federal Regulation 40CFR262.11 - Hazardous Waste Determination.</p> <p>The applicant shall resubmit this certification to the department and the receiving POTW prior to any modification to the description and/or characteristics of the wastestream(s) referenced above, including but not limited to any circumstances wherein any new chemicals or wastestreams are added.</p> <p>If you have any questions on this certification process, please call the Bureau of Waste Management/Engineering & Enforcement at 860-424-3372.</p>
